TAEKWONDO EUROPE EVENT HEALTH PROTOCOL

INTRODUCTION

The purpose of this Code of Conduct during COVID-19 to prevent the spread of coronavirus (hereinafter “the Code”) is to provide the organizing team and all participants with an overview of health and safety aspects, and the requirements for organizing this Taekwondo Europe event held indoors in the situation of pandemic threat of COVID-19 disease.

The organizer of the competition acts in accordance with local laws and regulations, as well as follows the recommendations of government public health services to reduce the risk to a minimum. Continuous risk assessments, and monitoring of the situation and its changes at the national, and especially at the local level, will ensure valid compliance with the recommended and mandatory health and safety regulations and measures.

The organizer of the competition has taken a clear position and has a policy of personal responsibility. This position takes into account the legal aspects related to the organization of the competition during the pandemic and is made public to athletes, representatives and professional accompaniment of competitors and all those involved in the organization.

The document was prepared according to the instructions and harmonized with the local and national prescribed measures for public gatherings.

Scope

The document applies to all participants in the competition and all those who in any way participate in organization and implementation and defines instructions on how to comply with the recommended requirements that the organizer of the competition takes into account in order to protect the personal and public health of all participants:

This person (COVID-Coordinator) has the role of the central coordinator and the person responsible for communication among the participants in the organization of the competition, ie the organizing committee, the hall managers, the relevant public health institutions and sports teams.

The organizer will keep a register that includes contacts of competitors and members of their entourage, officials and professionals, which will facilitate the identification and monitoring of further contacts of potentially infected persons. The keeping of the register will be in accordance with local legislation and regulations, and in accordance with the protection of personal data.
