The Medical Diagnosis Form (MDF) must be completed in English by the athlete's physician or physical therapist. The completed form must be submitted by the end of the application before the athlete is submitted for athlete evaluation. This applies to all physically challenged athletes competing in the WT.

Depending on the athlete's health condition and disability, additional medical information must be attached to this form (see page 2). See WT Classification rules for a list of eligible disabilities and underlying health conditions for Kyorugi.

NOTE – Failure to submit the MDF and medical information may result in your athlete not being able to be classified and receiving a “Classification Not Complete”, “CNC”.  
The athlete will then not be able to compete in the event.

The athlete must be wearing athletic (training) clothing. The athlete also needs to bring his uniform (dobok) and all personal protective equipment. The athlete must also bring any medical information relevant to classification.

Teams must have a translator who understands English well.

The athlete must always do his best in the tests and exercises requested by the International Classifiers. More information can be found in the World Para Taekwondo Athlete Classification
